Ok, I'll review this one then. Could you please resend it, though? I got overly zealous in cleaning out my inbox, apparently...

Hi Kelly,

We have a meeting scheduled for Nov 26th and will discuss the most revised version. I had planned for you to review a more revised version; however, I noticed a few comments/questions directed at you in this version. Up to you.

Jayne

 Subject: Your Input & Review on Revised Draft NOAA/EPA CZARA Assessment

Hi All,

I have added my minor comments to Allison's revised version, along with the list of documents, which are attached.

[attachment "EPA NOAA Assessment Dec 2012 Draft 11-8-12_ac,dw,jc.docx" deleted by Kelly Gable/R3/USEPA/US]
 [attachment "List of Documents for EPA & NOAA Initial Assessment.docx" deleted by Kelly Gable/R3/USEPA/US]

Now it is your turn...

In particular, think about the key messages we need to get across, as well as the tone and of course, review for accuracy.

Thanks, Allison, for your thoughtful revisions.

Cheers,

Jayne

Jayne,

I agree with Allison's approach, and I also thank you for kicking this off in the right direction. I think we are saying the right things in terms of tone and message, and I agree with Allison that we look for Region 10 to supply the missing detail around the Additional MMs for Forestry. My comments are fairly modest, and are attached to Allison clean version of her edits.

Subject: Re: Your Input & Review by COB Tuesday: Initial Draft NOAA/EPA CZARA Assessment

Jayne,

Thanks again for taking the first attempt to capture our thoughts for the letter. The initial take is always the hardest and once something is down on paper, it becomes easier to see how we may want to present things. Per my earlier general comments, I've made an attempt to recraft the letter into a shorter cover letter and accompanying enclosure that provides the state specific feedback on their progress in meeting the MMs and whether or not the IR-TMDL approach will enable them to achieve/maintain WQS.

I've fleshed out the sections for new devel and OSDS but ran out of time for the other two sections related specifically to the settlement agreement. However, I wanted to go ahead and send along what I had so people can get a better sense of what I was thinking and see if this approach would work. It's still rough around the edges. Also, I'm hoping EPA R10 folks could take a first attempt at putting some specific feedback down related to the IR-TMDL approach/WQS question and ability to meet the additional MM for forestry condition since you're much more involved in that process than me. I may have some additional time to think more about those sections tomorrow but my schedule is pretty full and like I said, wanted to get something out to folks so you knew what I was working on.

I included the original letter with my comments so you understand some of the changes I made as well as a clean version since track changes got rather messy.

Would be interested in your thoughts.

Allison

Hi All,

Attached is the initial draft assessment desperately needing your input and review.

(See attached file: EPA NOAA Assessment Dec 2012 Draft 11-8-12.docx)

Please provide your comments by COB on Tuesday and I will send out a revised draft for your review. I anticipate several rounds of comments before we can begin managerial and attorney review.
